

HOW TO USE THE JOLLY GREEN JUNIOR

These small carts are for all of your organic wastes including food scraps, yard trimmings, food-soiled paper, and other compostables.

Please Note:

- The Jolly Green Junior should only be set out when you are NOT setting out a larger yard trimmings/organics cart.
- Food scraps and food-soiled paper can and should still be placed in the larger carts. Jolly Green Juniors are a convenient option for residents with very small yards, residents with gardeners who remove most of their yard waste, and residents that want to recycle food waste when they aren't going to set out a larger yard trimmings/organics cart.

Please remember:

- The yard waste/food waste containers are collected weekly, while the other recyclables are collected every other week.
- Make sure the container is visible to the driver, since it is smaller than your other recycling and garbage containers.

**Call Recology South Valley at 842-3358 to order your
Jolly Green Junior.**
